## Community Walk

## Carnaby's Cockatoos in the Suburbs

**Dr Christine Groom**

*Author of Creating Black Cockatoo Friendly Suburbs, UWA Publishing 2024*

**Monday 5 May, 10-11am**

Join us for a walk through the streets of Nedlands to see where black cockatoos like to forage, drink and roost. We have been hearing about how black cockatoos are struggling to find enough food to survive. Christine will share her knowledge on how we can help black cockatoos and create greener spaces which are better for people too.

**Christine Groom** lives in the Perth Hills where Carnaby's cockatoos regularly visit her garden. She completed her PhD, studying Carnaby's cockatoos in the urban landscape of Perth in 2015.

**Meet at 10am at the carpark at the corner of Melvista Ave and Loton Rd**

There will be an intro talk followed by a walk pointing out cockatoo friendly elements of the streetscape, and then we finish where we started.

Cost \$25 Bookings essential, limited numbers
